Who We Are?

The Insurance Corporation of Afghanistan (ICA) is the first private commercial insurance company in Afghanistan and was established in 2008.

ICA operates from its headquarter offices in Kabul and has a highly qualified staff of international and Afghan professionals, representing the leading industry professionals in the country at this time. ICA has to date, arranged insurance coverage in excess of USD 35 billion on behalf of clients operating in all sectors of the economy.

Why ICA?

- Leading insurer in Afghanistan
- Highest paid-up capital (11m USD)
- Fully dedicated TPA Company (IHA)
- Wide Medical Network
- Fastest claims settlement
- Tailor-made insurance solutions suiting our clients needs
- Unmatched reinsurance facilities
- Most competent technical staff
- Infrontier (owned by UK and Dutch Government) further elevating our ability as the leading Insurer.

Our Services

1. Medical Providers Network:

Widely distributed Network all over the District of Afghanistan, which includes the best qualified medical centers, the mix of providers are as follows:

- a. Hospitals
- b. Doctors (All Specialties)
- c. Laboratories
- d. Physiotherapy Centers
- e. Radiology Centers
- f. Pharmacies

Additionally, kindly note that IHA Network department team are willing to add any other medical provider based on the geographical distribution and type of specialty.

2.2. Pre-approval Department: (24 hours/7 days a week) Service:

Pre-approval Center consists of doctors for case management and approval cases. This center operates 24 hours a day / 7 days a week. The main responsibilities for this center are:

- a. In-Hospital case management (approval, follow up, case extension), approval time is given in a very short time (30 minutes by maximum), unless further info or diagnostics are requested
- b. Out-Hospital queries
- c. Cases that require pre-approval as per table of benefits if any
- d. Chronic medications issuance
- e. Medical advices
- f. Second opinion referral (according to client needs).

3. ICA Insurance Card:

This card is issued by ICA Company and Interhealth Asia for insured member, to use while visiting any medical facilities seeking treatment.

4. Chronic Medications Management (for chronic illness)

Issuance of special chronic medication forms to be delivered to the clients on regular basis through one of our network providers (according to the treating doctor prescription & plan).

5. Provider Names:

Insurance Corporation of Afghanistan shall provide for each insured member a list of all Network providers contracted and approved through Interhealth. In addition, clients / insured will be notified regarding any updates that will occur on the Network during the year on regular basis (New additions, cancellation) Via Email.

6. Claim Settlement (Reimbursement Claims)

The Claim Settlement of re-imbursement claims shall be settled within a maximum period of 15 working days, and the below rules applies:

- I. 100% in areas with non-network availability
- II. 80% in an area where a network provider is available but the adherent / insured visited a non-network provider.

7. Waiting Periods

- I. At the policy inception: Members that are listed at inception will NOT be subject to any waiting period
- II. Additions: Waiver of waiting period for new enrollees during policy period will be subject to satisfactory medical condition upon filling a medical application form.

8. Mechanism of receiving Medical Services:

a. Out-Hospital Treatment:

The client visits medical treatment center with his/her insurance card. Receives outpatient medical form. The client is examined by the physician and all data whether personal (date of birth, member no. date of visit, etc.) or medical (diagnosis, date of onset, medications, requested radiology, etc.) are registered on the outpatient form. The hospital takes a copy and the rest of copies are referred to Pharmacy for medications, Laboratory for lab investigations and Radiology center for radiology requests. In case any approval is needed, the provider calls the approvals department (Call Center) of IHA; the case then be studied from medical and insurance perspectives, in case approved an approval no is given immediately.

In situations where the client seeks medical treatment in hospital emergency rooms for non-emergency cases, the mechanism mentioned above will be applied. In emergency cases, there is no need for an out-hospital form as the hospital calls the approvals department in which an approval no is given on the spot.

b. In-Hospital Treatment:

In any admission cases, there is no need for an outpatient medical form. Data are registered on another special form called pre-hospitalization form, filled by the doctor in-charge, sent by the hospital via email to IHA approval department. The form will be studied from a medical and insurance perspective. The reply, either as an approval or rejection, will be sent to the hospital in a maximum of 30-minute duration.

In emergency conditions, the provider will engage in treatment straightaway as per international medical practice law. Afterwards, correspondence and approval (if covered) will be granted officially.
